Refuse to be silenced.

2022 isn't a presidential election year, so why should I even bother voting?

- State and local governments actually have the most direct impact on your daily life because they are responsible for helping to tackle the issues facing your community.
- Local governments are responsible for public works, police, fire departments, EMS, library services, education, housing and rent, public transit, and taxes, to name a few.
- Many federal policies start at the local level.
- Representatives represent voters! If you don't vote, your voice won't be heard.
- Many local elections are decided by only a few votes.
- For even more information about voting, please visit the Jefferson Votes website using this link.
